

Indiana Department of Education
SUPPORTING STUDENT SUCCESS

MEMORANDUM

TO: Indiana Superintendents
FROM: Dr. George Frampton, Chief School Certification Officer
DATE: August 27, 2009
SUBJECT: Emergency Weather Delays

The Indiana Department of Education has received several phone calls today regarding the status of one or two hour emergency weather days. It is important to be sure that each school district knows that there has been no change to the policy on delays.

One or two hour emergency weather delays will continue to be waived by the department and these days will count as a full instructional day.
